

dear commissioner powell and et al,
i have recently become aware that your commission is
going to
vote hastily on a decision to sell our property once again
without due
respect to our involvment via public hearings. please take us
into
account when yourselves, as our advocates in washington,
make
decisions as to our wishes. i for one (and i know thousands of
people
like me) want there to be open public debate on this matter
before it
goes to a closed door secret vote in your apparent kabala of
selected
insiders. i have always thought the fcc to a jewel in our public
system,
don't let us down do the right and nobel thing, give this process
over
to the fair debate that we call democracy.

thank you

for your time,

tighe barry
